

*Wine Grapes*  
**GODELLO**

White variety cultivated in Galicia (by the Sil and Miño valleys) in the D.O.Valdeorras and D.O. Monterrey.

**PHENOLOGY**

Average sprout and maturation.

**CLUSTERS AND BERRIES**

Small-medium berries, ellipsoidal in shape and green colour when ripening.

**PESTS AND DISEASES**

Sensitive to oidium and botrytis. Slightly sensitive to mildew and escuriose.

**AGRONOMIC CHARACTERISTICS**

High fertility, providing high yields. Requires dry and warm soils.

**OENOLOGICAL CHARACTERISTICS**

Produces wines with very good organoleptic characteristics. Its alcohol content can be between 12 and 13.5°, with a total acidity of 5.5 to 7.
